

McNeil biomass incinerator is the worst polluter in Vermont

“NO!” TO ADAGE *INCINERATOR* IN SHELTON

1-ADAGE incinerator would *kill us* and *make us sick* in Shelton & Mason County.

2-ADAGE incinerator would *rain toxic pollutants* on our children and community.

- Killer Particulate Matter (PM) • Dioxin • Arsenic • Mercury • Lead
- Carbon monoxide • Chloroform • Formaldehyde • Sulfurous acid

3-ADAGE incinerator would mean up to *360 heavy truck trips per day*, tearing up roads at taxpayer expense.

4-ADAGE incinerator would *burn more than one ton of wood per minute*, consuming whole trees and ripping apart our forests.

5-ADAGE incinerator would suck an estimated *125,000 gallons of water per day* from an unidentified source and dump an estimated *125,000 gallons of contaminated water per day* somewhere near Oakland Bay.

6-ADAGE incinerator would *cost taxpayers millions* of dollars in “infrastructure improvements” and tax giveaways.

CITIZENS JUST BEAT ADAGE IN FLORIDA! WE CAN BEAT ADAGE HERE!
